Release Documentation

All Gradle build steps should be executed from the product/ folder.

ADK
The adk repository includes the Applet Development Kit (ADK), a Backbone.js/Marionette framework for writing eHMP applets.
- Build Steps: gradle clean test grunt_deploy
- Artifact Location: adk/product/production/build/adk.tgz
- Gradle version: 2.4
- ADK Documentation: adk.zip/product/production/documentation/

RDK
The rdk repository includes the Resource Development Kit (RDK) and the node.js REST resources written with the RDK.
- Build Steps: gradle clean test zipRDK
- Artifact Location: rdk/product/build/rdk-x.x.x.zip
- Node version: v6.10.2
- Gradle version: 2.4
- RDK Documentation: rdk.zip/product/production/rdk/docs/

eHMP-UI
The ehmp-ui repository includes the applets, layouts and screens developed using the ADK.
- Build Steps: gradle clean test zipEhmpuiApp
- Artifact Location: ehmp-ui/product/build/ehmp-ui-x.x.x.zip
- Grunt Version: v0.1.7
- Gradle Version: 2.4
- Ruby version: 2.1.4p265
- Gem versions: compass-1.0.3, sass-3.4.16

eHMP
The ehmp repository includes the eHMP synchronization process, VX Cache configuration and mock data services.
- Build Steps: gradle clean test build
- Artifact Location - JDS: ehmp/product/production/jds/buld/jds-x.x.x.ro
- Artifact Location - eHMP KID Builds: ehmp/product/production/hmp/build/hmp-x.x.x.zip
- Artifact Location - HMP KID Build: ehmp/product/production/HMP_2-0_V5-5.KID
- Artifact Location - eHMP Sync: ehmp/product/production/vx-sync/build/vxsync-x.x.x.zip
- Artifact Location - eHMP Opportunistic Sync: ehmp/product/production/osync/build/osync-x.x.x.zip
- Artifact Location - eHMP Terminology Databases: ehmp/product/production/termdb
- Artifact Location - Solr configuration: ehmp/product/production/vpr/build/vpr-x.x.x.tgz
- Artifact Location - Health Time Libraries: ehmp/product/production/health-time/build/libs/health-time-x.x.x.jar
- Artifact Location - eHMP SOAP Handler: ehmp/product/production/soap-handler/build/soap-handler-x.x.x.jar
- Artifact Location - Mock MVI: ehmp/product/production/MockMVI/build/MockMVI-x.x.x.war
- Artifact Location - Mock Services: ehmp/product//build/nodeMockServices-x.x.x.zip
- Artifact Location - eHMP ASU/USR Rules Engine: ehmp/product/production/asu/build/libs/asu.war
- Gradle Version: 2.4
- Ruby version: 2.3.1p112
- Gem versions: compass-1.0.3, sass-3.4.22
- eHMP Backend Documentation: ehmp.zip/product/production/vx-sync/documentation/

The current SDK documentation is available at https://<ehmp>/documentation/
